

Easy assembly of the Altman Plants Indoor Succulent Display Rack

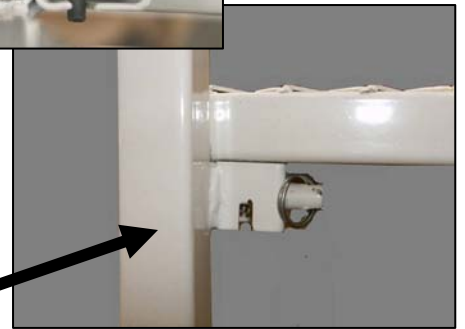

2 vertical ends + 3 shelves = 1 display rack

1. Hold vertical ends apart with the square locking channels facing each other, with the black caps at the top. Pull ring-pins open and lock into open position

2. **Insert bottom shelf first (shelf with two labels)** Insert shelf peg into end-piece channel; release pin to lock
-- Use rubber mallet if needed --

3. Insert middle shelf by dropping shelf peg into end-piece channel (no pin)

4. Insert top shelf in the same manner (no pin)

Indoor Succulent Display Rack is designed as an endcap,
to be placed in the Inside Garden area.
Load plants according to their assigned placement, below.
